

## THE PERFECT COMMS ROOM SOLUTION

The Toshiba tall floor standing unit, with high air flow rates and superior air throw values, makes it a perfect solution for the comms room environment. As with most comms rooms free standing storage racks is the preferred method of housing the hardware. Therefore this unit puts the cooling where it is required.

The wide automatic vertical and horizontal air distribution angles permits the distribution of the flow in large rooms. With a small footprint; 0.128m<sup>2</sup> up to 8kW and 0.243m<sup>2</sup> up to 16kW.

High air flows from 180l/s to 600l/s (660 m<sup>3</sup>/h to 2160 m<sup>3</sup>/h). With a wide air distribution angle of up to 150°

A cooling capacity range from 4.5kW to 16kW make this unit suitable for a wide choice of other applications such as retail.

**TOSHIBA** are pleased to announce the integration of these units to the Digital and Super Digital Inverter range.
