

New Upgraded TCB-SC640U-E Central Remote Controller

TOSHIBA confirm upgraded accessory "64 unit Central Remote Controller" will be released to join Estia to current Light Commercial and VRF line-up for TU2C-Link bus

1. Accessory Model

Description	Model Name	Note
Central Controller	TCB-SC640U-E	Current model upgrade

2. Production Date

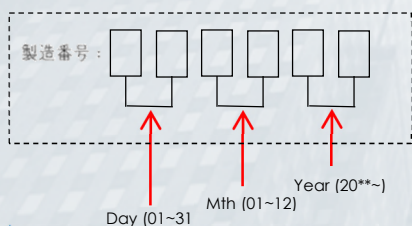

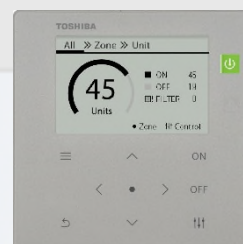

From October 2021, TCC.

3. New Functionality

- Connectable to R32 Estia 1-Series on TU2C-Link bus
 - Current model is compatible with VRF and LC products. After the upgrade it will be compatible with: - VRF, LC and A2W (R32 Estia only) products
 - [Note 1] Estia 5-Series is not connectable
 - [Note 2] A QR code will be provided with a link to the website in the new upgraded interface
 - [Note 3] The CD-R with manuals will no longer be supplied with the new upgraded interface

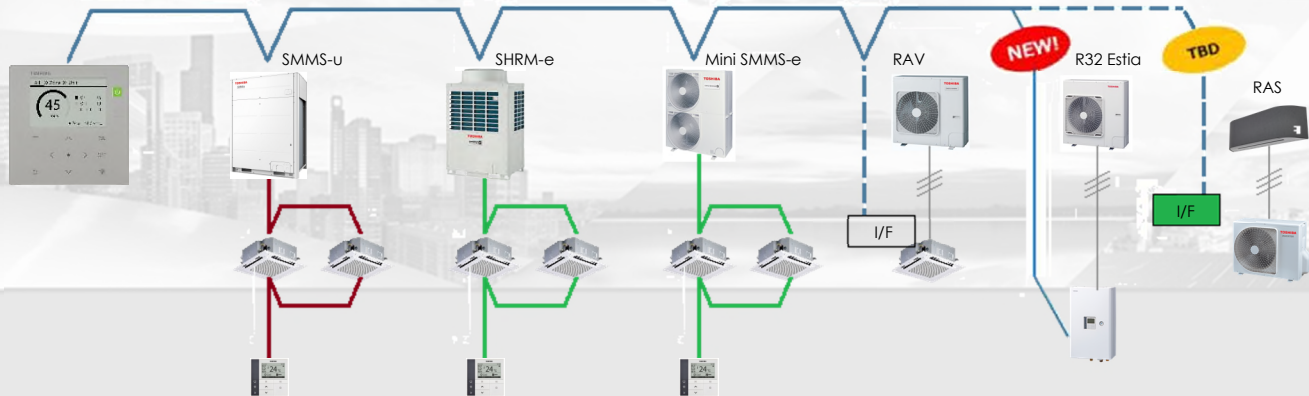

4. Identification

The new upgraded version can be identified from the production date on the carton box. The new upgraded interface will have a production date of **1021. In addition, a dot mark will be added to the package label and product label

5. System Configuration

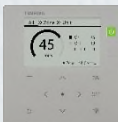

The upgraded TCB-SC640U-E enables control of the Air to Water systems together with Light Commercial and VRF air conditioners. RAS products are not currently included and will be announced separately, as they are under development consideration and will require new TU2C-Link Adapter

—	New= TU2C-LINK	(Uh, Uv, Uc)
—	Conventional= TCC-LINK	(U1/U2, U3,U4, U5,U6)
—	Mix= TU2C-LINK + TTC-LINK	
- - -	Optional interface required	(under development)
I/F	Communication adapter	(TCB-PCNT30TLE2)
I/F	TU2C-LINK adapter for RAS	(under development)

6. New Visual Display
