

New Wave Tool Advance for iOS

TOSHIBA confirm the new "Wave Tool Advance for iOS" has been released for VRF SMMS-u range

1. Wave Tool Advance

Wave Tool Advance (WTA) for the SMMS-u range is an App for the Smart Phone that enables installation and maintenance engineer's access to some of the system data and test operations of compatible air conditioning equipment

- This App uses the NFC function of the Smartphone. Since the NFC function is available in models from the iPhone 7 onwards. This App cannot be used with iPhones earlier than the iPhone 7
- Apple and the Apple Logo are trademarks of Apple Inc., registered in the U.S. and other countries and regions
- App Store is a service mark of Apple Inc
- iOS is a trademark or registered trademark of Cisco in the U.S. and other countries

2. Features

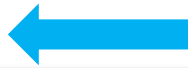

• Test Operation Function	Setup function used during the test operation
• Auto Saved Data Output	Read out the information automatically saved in an outdoor unit
• Save Data to Outdoor Unit	Enable other workers to read and share information anytime on site. Some functions are available while an air conditioning unit is not powered on
• Capture	Acquire operation data at the time when you touch your smartphone to an outdoor unit, or you set a timer
• Simple Report	Use the functions installed in the smartphone to create simple reports
• Data Management	Search and edit the data saved in your smartphone
• Help	Show help functions of the Wave Tool Advance NFC system settings, NFC tag replacement methods, and Abbreviations

For information on how to use the WTA, please refer to the user guide on our website by using the QR Code or weblink below:
