

## Discontinued Smart Device Control Interface

**TOSHIBA** Are informing you that the "Smart Device Control Interface" will be discontinued.

### 1. Model Names

Production	Model Name
Smart device control interface for global model	BMS-IWF0320E

[Click image for link to product](#)

### 2. Discontinuation Date

Due to sudden EOL of a unique semiconductor used in the Smart Device, the Smart Device will be discontinued immediately.

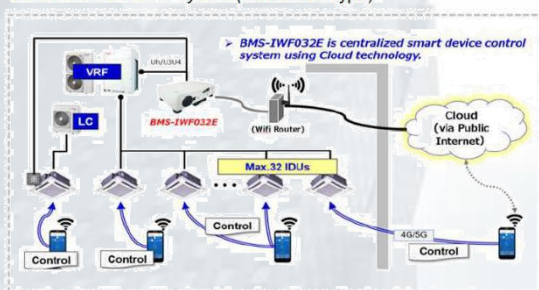

Please note the Cloud Server for the App (Toshiba AC Control) will continue to operate.

### 3. Comments

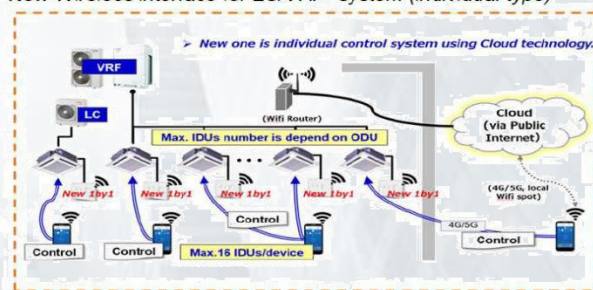

The proposed plan for the WIFI controls for LC/VRF products is as follows:

- Step one: Expand 1:1 WIFI Interface for LC/VRF in 2023 from TCTC.
- Step Two: Develop a new Centralised WIFI Controller after 2024.

Discontinued Model System(centralized type)

New Wireless interface for LC/VRF<sup>®</sup> system (individual type)

**Note:** \*1 : Specification is tentative and may change without notice.

\*2 : Application is "Toshiba Home AC Control"
